REDMEN HALL PROBLEM IS STILL UNSOLVED

What Are We Going to Do With the Redmen Hall? That is the Question

Tuesday evening there was another meeting of basketball enthusiasts at the Chamber of Commerce rooms. Plans were talked over pertaining to the starting of a town team this winter season. There are plenty of experienced players in this town, who are anxious to get started but the one drawback that has not as yet been hurdled is the permission to use the Redmans Hall for the games. The Redmens Hall Association is asking $250 from the town basketball team for the use of the hall this winter.

There is now a movement on foot for the city to take over the Redmens Hall and use it for the much needed municipal auditorium. The city officials are balking at taking it over because of the attached obligation of around $4,000. They are endeavoring to get some other organization to take the hall over so that it can be used as a municipal auditorium.

The Nevada City Fire Department is considering that action but as yet they evidently think the obligation is too much to shoulder. They are willing to aid in almost any way and if some other group would lend a financial hand, the fire laddies would be only too glad to help the plan along.

It seems to a great many people that the most feasible idea would be for the city to buy the hall and property for the swimming pool site that has already been voted on by the people. In the bank there rests $11,100 drawing 2 per cent interest that belongs to Nevada City. The people of Nevada City have voted to use that money for the purpose of building a community swimming pool. The first thing to do when building a swimming pool is to buy, or acquire in some way, a site. As yet that action has not taken place and the money lies idle in the bank.

With $4,500 of that $11,100 the Redmens Hall and property could be purchased and put into good shape for the swimming pool site. From a business standpoint, a better move could not be made. The site for the pool is near the center of town and shower and dressing rooms are already built to order. Besides that (you might say for nothing) the city gets a full sized auditorium and gymnasium.

Through that move Nevada City would get a swimming pool in the summer time, a gymnasium in the winter time and the only good-sized auditorium the year around. That move is a "Natural." The city gets an auditorium, the school continues to have a gymnasium, the basketball team gets a court and the people get what they have already voted for.

This plan has been brought up before the city officials but for some reason they have failed to take the necessary action. It is said that some of them are afraid they will be criticised. Let it be known that there has already been criticism for the inaction taken by the city officials in the matter of the swimming pool.

When a man takes a public position there is criticism no matter what he does; and if he does nothing there is more criticism. In fact everything worthwhile that was ever done has been subjected to criticism. That should not stop a worthy project. It did not stop Columbus, it did not stop the completion of the Panama Canal and it did not stop the starting of the San Francisco Bay Bridge, so why should it stop the progress of Nevada City?

MAN ARRESTED UNDER WRIGHT ACT AT NORTH BLOOMFIELD

Hans Hansen, of North Bloomfield, was arrested under the provisions of the Wright Act Monday for operating a still and possession of intoxicating liquor. Judge Mobley fined Hansen $150 and as he was unable to pay the fine he is confined in the county jail.

Coach Bev Barron made a trip to his home in Sonora yesterday afternoon.

CUB SCOUT WORK MAKES GOOD HEADWAY OF LATE

Bill Norton is the first Cub Scout applicant to pass his "Bob Cat" test and therefore is the first boy in this City to become eligible for the title "Wolf Cub Scout." Bill is nine years old and so is under the classification of "Wolf Cub." Boys of ten years of age will be called "Bear Cubs" and eleven y ear old boys are called "Lion Cubs." Upon r eaching the age of twelve, they are eligible to become Boy Scouts of America. Bill has three more years of Cubbing before him and much will be heard from him before that time is up.

Last Saturday the meeting was not in full attendance due to the extreme cold w eather prevailing. The boys on hand however went through a strenous series of games and as a result of this activity, the cold was soon forgotten.

A live meeting is being planned for tomorrow at two o'clock in the Foresters Hall. All Cubs should try to be there on time.

EASTERN MEN TO WORK LOCAL GRAVEL MINES

Guy A. Reder, R. C. Brunny, Paul Maglovsky and Jack Petrovich have recently arrived in Nevada City from eastern states with the intention of working a gravel property in this district. Brunny is an experienced gravel miner, having worked for many years in Alaska, Oregon and California. Reder has done considerable work in Canada.

Several gravel properties around Nevada City were looked into last week and the first part of this week. Wednesday the men went to the French Corral district on the San Juan ridge to further inspect gravel properties. Water is expected soon on the ridge and activity will then be feverish as many men have been preparing for the winter season during the past few months.

The four men from the east are well impressed with mining possibilities in this region. They hope to locate here and work some property either on a lease or an outright purchase.

HIGH SCHOOL GIRLS WANT TO PLAY BASKETBALL

Claiming that this is one of the few high schools in the Northern part of the state that has no basketball team for girls. Quite a number of the local high school girls are endeavoring to instigate a movement to establish a team here. There are at last twelve girls who would like to play and probably a number more would like to join once the team gets started.

The question has come up before but there seems to be some objection coming from some of the members of the faculty. Two problems were confronted by the girls when they expressed their desire. One was the court and the other was an instructor in the sport. As for the court, the Redmen's Hall will do very nicely a sit has done in past years. The girls used to pracice when the boys were not using the court.

As for the instructor or coach, Mr. Bev Barron, boys' basketball coach, has offered to help in that capacity if the girls organize the team.

All that seems to be necessary now is for the girls to gain the consent of the faculty. A petition was to have been signed by the girls but that was dropped because of the lack of an instructor. Now that Mr. Barron has offered to help there seems to be no good reason why the girls should not have their basketball team a swell as the boys.

Grass Valley high school has it's girl team and they play games with a number of other high schools in this part of the state.

Some say that the sport is too streneous. The local high school girl have worked with picks and shovels in the school yard, played hockey, soccor, volley-ball, tennis and baseball with no ill effects. In fact they claim they need more exercise than they are permitted to have now. Instead of girls' rules they want to play under the boys' rules when they play basketball.

At any rate it should rest with the girls themselves, if they want to play basketball under boys' rules, they should be given the opportunity as girls in other high schools are given.

NEW METHOD OF GOLD RECOVERY PROMISES MUCH

Nevada Man Has Invention That May Revolutionize Gold Mining

A new metallurgical discovery that will revolutionize the recovery of gold impounded in black sands, sulphide and base ores has been made by A. A. Lauritzen, metallurgical engineer graduate of the Mackay School of Mines, University of Nevada ,at Reno. Costs of treatment of the low grade refractory ores under this new method will be so low that many heretofore unprofitable properties will be placed in a position to be worked on a profitable commercial basis.

This new discovery is the result of twelve years of persistent effort on the part of Lauritzen. The research work has brought him to all parts of the United States.

"No longer will it be necessary for the operator, large or small, to ship his sulphide or base ores to smelters for treatment. Neither will it be necessary to expend large sums for installation of cyanide and oil flotation plants." say men who have studied the Lauritzen system.

It is said that the new process will revolutionize the mining industry of the nation by scrapping all present systems and processes of ore reduction for the recovery of gold and other metallic substances.

It is claimed that under the new process the heretofore untouched vast deposits of sulphide and base ores carrying gold values from $2 to $5 per ton will be made commercially profitable. It is further said that the treatment of these ores can be made at the location of mine operation at a few cents per concentrate ton.

In a talk before the Mining Association of California at Sacramento, George B. Ackerman, Sacramento mining man, stated last week:

"Values unrecovered in present operating cyaniding and oil flotation plants, and there is today not any plant in either of such classification that recovers all of the gold values, are recovered from the tailings of such plants by the Lauritzen process.

"The greatest of all benefits and the one that will redound to the immediate material assistance of the common man, the 'forgotten man,' is through the recovery of gold, platinum and other precious metals from the black sands found along the river beds, in alluvial and auriferous gravel deposits."

WORK ON SCOTT'S FLAT MINE IS SUSPENDED

Work on the Scott's Flat hydraulic mine that has been in progress for the past few months has been suspended because of a shortage of water due to snow blocking the ditches of the Nevada Irrigation District.

John W. Scott, mining engineer, has been in charge of the development work at the mine and actual production work was anticipated for this winter season. It is not known just when work will be resumed.

ALL NEVADA CITY SCHOOLS CLOSE BECAUSE OF ILLNESS

Yesterday it was announced that both the high and grammar schools of this city would be closed for the rest of the year because of the prevailing sickness that is current at this time. The announcement came in this afternoon and yesterday's classe swere final.

There were 35 pupils absent from the grammar school and 40 from the high school yesterday. In the United States history class at the high school, there were twelve students absent out of a class of twenty-four In another class there were fifteen gone out of a class of twenty-five.

Both Miss Tremaine, teacher, and Mr. Kjorlie, high school principal, have been laid up. Mr. Kjorlie is now feeling much better.

Both schools will be closed down for the Christmas holidays and will open again on January the third instead of the originally planned, the eighth.

SKI COURSE NOW OPEN BUT SNOW STILL LIGHT

Last Sunday a group visited the Nevada City-Grass Valley Ski Club course about ten miles out the Tahoe-Ukiah highway. For the first time this year the tobaggan was put in use and the participants report an enjoyable though chilly outing.

The course will be open again this week end and it is hoped by winter sport enthusiasts that more snow will fall by that time. There was little more than a foot of snow last week and because of the light texture, the toboggan slide was somewhat slow.

By Christmas enough snow should be on the course to make it really enjoyable. Many folks from around Yuba City and Marysville are expected to patronize the course this winter. Last week quite a group came up from that district and enjoyed the sports immensely.

It is expected that the installation of the engine and cable to draw the toboggan back up the hill will draw more people to the coure than have come heretofore. That thousand feet of slide is covered in a few seconds coming down, but not so going back! With the completed installation of the engine and able, instead of dragging a toboggan back up the steep hill, just climb aboard and ride to the top.

LOCAL P. O. FORCE HAS FUND FOR CHARITY

In line with a custom which has been followed for many years, the employes at the Nevada City postoffice, including the postmaster, have accumulated a fund for charitable purposes. This year the fund totals $20, and was raised by taking one cent a day from the salary of each postoffice employee.

The fund will be turned over to the Parent-Teachers Association to be used in providing milk at the local schools. This is good work and is only one of many charitable activities which are taking place in Nevada City.

Among the arrivals this week to spend Christmas holidays, are Misses Betty Bettles, Margaret Rector, Bill Rector and Byron Janes, students at the University of California.

Cold Weather Continues; Water Pipes Freeze and Plumbers Busy

Continued cold weather has caused plenty of trouble in Nevada City this week, and Herbert S. Hallett, superintendent of the city water system, has had a crew of men at work keeping the main supply open.

Local plumbers have been on the jump since last Friday, and pipes have frozen in residences all over the city. The main water supply was threatened Saturday, when the Snow Mountain ditch of the Nevada Irrigation district became blocked with ice. The crew under Superintendent Hallett had to work hard to get the water through the Cascade ditch to the city's southside reservoir at Canada Hill.

Monday morning the fire hydrant in front of the city hall broke and it was necessary to shut off the water in that part of town Wednesday in order to repair the hydrant. The city water supply has been seriously drained by the fact that many people have been letting hydrants run to prevent pipes freezing. No water is coming from the north side reservoirs and the middle reservoir is only about half full of water. The lower reservoir, however, is practically full and this assures water in case of emergency.

The weather has continued clear and cold during the first part of the week, with no indication of a change of temperature. Reports from all over northern California, tell of unusually low temperatures, in some cases establishing new records for this time of the year. The minimum temperature in Nevada City during the cold spell is 9 above zero. The thermometer reached that mark last Friday and again Tuesday.

Young People Surprise Friends; Marry in Reno

The many friends of Rolfe Buffington and Miss Zeta Frey were taken by surprise when it was learned that the young couple had been married in Reno last Tuesday.

After a honeymoon around the bay the young couple will return to make their home at the Buffington ranch, west of Nevada City.

Mr. Buffington is engaged in mining and his wife is well known in this city, being a niece of Mrs. S. Granger and Mrs. J. E. Walker of Nevada City. The Nugget joins with many friends in wishing these young folks a long and happy married life.

BASKETBALL THIS AFT. LOCAL H. S.-ST. MARYS

Three high school basketball games will be on tap this afternoon at Redmen's Hall on Broad street of this city. As they are afternoon games, admission will be free. The first game starts at 2:30 and is between the local high school "D" team and the Washington Grammar school of this city.

Immediately following the high school "B" and "C" teams will take the floor to decide who shall be entitled to the honor of being "second team" at Nevada City high school. After that fray, the class "A" team will take the court versus the first team of St. Marys Academy of Grass Valley.

Playing on the St. Marys team will be two former stars from Nevada City high school. They are Donald Macarri and Bud Baker, who graduated from the local high school last semester. Considerable rivalry is anticipated as these boys will be playing against their old teammates. The valley team comes here with the reputation of being one fast organization.

Coach Barron was called to his home in Sonora yesterday and so the local teams will be playing without the moral support of their mentor.

These games will be the second that the local high school teams have played. Last week both the "A" and "B" teams lost to the unlimited and 145 pound teams from Hesser's Pharmacy of Sacramento by narrow margins. The "C" team took the starch out of the "D" teams sails by the tune of 6 to 12 although they had their hands full doing it.

Today's games will be the first scholastic games for the "A" and "B" teams and the entire student body together with a good number of townsfolk is expected to be on hand.

Lineup for the "A" team is announced as follows:

Oates	.....	Forward
Chapman	.....	Forward
Pierce	.....	Center
Wasley	.....	Guard
Casci	.....	Guard

Schiffner, who last game played a steady guard game is expected to be shifted to a forward berth and is bound to see action before the game is many minutes old.

The high school boys have this week fixed the Redmen Hall gym floor to better accomodate the fast play of a basketball game. They have also moved the basket on one end inward five feet so that plenty of room will be had out of bounds on the end of the court.

MINING MAN THREATENED WITH PNEUMONIA AT MINE

William G. Feuton, of the Fenton mine about nine miles from Nevada City, is sick in bed and threatened with pneumonia. This information was brought to Nevada City Wednesday morning by Mrs. Fenton, who came to town on business matters. Mr. Fenton was taken ill with a bad cold several days ago.

Attending the Tahoe Area Council of the Boy Scouts this week in Roseville, were George L. Jones, Mr. and Mrs. W. E. Perry, Allen Chapman and Dick Parsons.

Dr. W. W. Reed and Fred C. Worth are among the Nevada City residents who have been sick this week with influenza.

Gordon Bettles, Nevada City mining man, has been confined to his home for several days by an attack of influenza.

PLANS COMPLETE FOR CHRISTMAS PROGRAM TODAY

Children and Adults Will Participate in Parade and Program

The big event of the year for Nevada City children will be the staging of the annual Christmas Tree parade and party this afternoon. Starting at two o'clock, the parade will form at the Washington Grammar School and from there the marchers will head down toward the court house. On the lawn of the court house there has for the past several days been a full sized old fashioned Christmas Tree with the modern decorations of colored electric lights.

Upon reaching the tree, participants of the parade who have gifts to give to the needy and deserving will deposit them at the foot of the tree. Later in the day these gifts will be distributed to the best possible advantage. Any one who would care to help in this worthy charitable cause is asked to give either produce, cash or toys. Second hand toys are very acceptable. Gifts of this nature can either be left at the Brand Studio on Broad street or under the Christmas Tree tomorrow afternoon.

Already many donations have been left at the Brand Studio, among them being a sack of potatoes, several sacks of flour, a case of milk, a case of assorted vegetables, order from different individuals for groceries, merchandise orders from stores and a few cash donations.

After the trip to the Christmas tree this afternoon, a program of music will be rendered by the high school band and all the children will unite in singing Christmas carols.

All citizens besides members of the grammar and high schools are invited to participate in the parade. It is hoped that the closing of the schools yesterday afternoon will not lessen the interest in the Christmas tree event.

Mrs. Douglas, in charge of the Christmas tree committee from the Womens' Civic Club, has spent a great deal of time and effort in order to insure the success of this year's Christmas tree. Aid has been given her by Miss Minnie Brand and several other. With the aid of everyone, this will be made a happy Christmas time for all.

Gold Flat Club Has Program Last Saturday

The Gold Flat Thursday Club held a supper and program on Saturday last, December 10th, in the Knights of Pythias hall, when members invited their husbands and families. About 100 people were present and all enjoyed a fine time. A cooked dinner was served, after which a program was rendered by the club members.

The program included a number of fine offerings and was under the direction of Mrs. William Masterson of Nevada City.

After the program, everybody joined in games and dancing.

Between the numbers on the program musical selections were played by an orchestra consisting of the following instruments: Piano, Mrs. C. E. Dolton, banjo and cornet, Mr. Frank Stuart; violin, Mr. Joe Frost; guitar, Mr. Chester Frost. This orchestra also furnished the dance music, which was enjoyed until a late hour.

Just before the members and the guests left the hall, each child was presented with a box of candy.

ELKS CARD PARTY WED. NIGHT IS BIG SUCCESS

The card party given Wednesday evening by the Nevada City Elks lodge was a big success and $112 was raised to be used in charitable work. This is only one of many activities carried on by the Elks to help those who are unfortunate. The local organization, as well as the lodge in general, is always particularly active at Christmas time.

John Soga who has been in San Francisco for his health returned home last Wednesday.

THE THIRTY HOUR WEEK

The Americn Federation of Labor is demanding a thirty-hour week as a solution of the unemployment problem, and we believe they are right. Out of all the theories that have been advanced as the cause of the depression and unemployment there is one that stands out—the development of labor saving machinery. Engineers, economists and real thinkers are agreed that here is the principal cause of the worst depression in the history of the world.

During the presidential campaign many theories were advanced, many accusations were made. The tariff and other contributing factors were blamed for the evils that beset us. From the Democratic viewpoint nothing the Republicans advocated was right, and vice versa. The political viewpoint is seldom sound or correct. The great thinkers of America are not primarily Republicans or Democrats. They are not governed by partisan motives or objectives. Engineers, scientists and others who are in a position to think clearly know that machinery is the basic cause of the present widespread unemployment. And the only way you can put the great mass of the unemployed back to work is to reduce the hours of work. With the industrial machine running eight hours a day or 48 hours a week we have overproduction. When the product of the machine is not taken away the machine has to stop. So the demand of the American Federation of Labor is just, logical and sound and must sooner or later be adopted if American life is to be restored to a normal and healthy condition.

Right now we have about twelve million idle men in the United States. On the other hand we have men who are working as high as 16 hours aday or 96 hours a week. Labor unions generally are working for the shorter work week and in many cases it has been adopted.

It is to be hoped that government in the future will be based on a better understanding of economics. The crushing defeat of the Republican party was due to the fact that the leaders of the Republican party did not understand what was going on or make any preparations to avoid disaster. If the Democratic administration profits by past experience and recognizes fundamental economic laws, the United States is going to come out all right and in course of a year or so we will have a sane prosperity based on the fact that every man is entitled to the right to make a living.

GOOD MORNING!
HAVE YOU STARTED CHRISTMAS SHOPPING?

LEITER'S IS HEADQUARTERS FOR MEN'S GIFTS

You can choose his gift at this store with full confidence that it will please him. "From Leiter's" means that it is right. See these.

God's Gift

TO SUFFERRING HUMANITY

Man, with all his knowledge and progress, has found nothing to equal the health-giving herbs that God put into the ground to help mankind.

Hundreds of the sick given up to die by doctors have been restored to vigorous, sturdy health by the correct use of herbs. Sleepless nights, days of suffering and weakness have been banished—and are being banished daily.

Over 3,000 varieties of pure, natural herbs are ursed by the Chinese herbalists. For 4,000 years the knowledge and experience of eminent Chinese physicians in blending and preparing pure, natural herbs has been recorded and handed down. There are now formulas for the permanent relief of almost every human ailment—formulas which have been proven by centuries of success! There is no guess work in Chinese Herbal science.

MODERN MINERS MUST RIDE ALL THE WAY

CAMPTONVILLE, Dec. 12.—A fine big car drove up in front of the local store a few days ago, with two well dressed men in it, an old timer was standing on the porch. "How far is it to the American Flag mine?" came the question.

"Five miles," was the reply.

"Can we drive right to it "

"No you will have to walk, perhaps, a mile and a half."

"If we have to walk to it, we don't want to see it, thanks for the information, good-bye."

And the old timer remarked that such is the way they mine to-day. In the good old days when anyone wanted to see a mine, whether they could get there in a wagon, by mule back, or on foot, they went to it. If pioneering had to be done today, the country would be out of luck, for the people are educated so that they cannot go out if it is at all inconvienient, and rather would prefer to have the venture handed to them on a silver plate, and so it is, and then when the deal is a flop, they wonder how it happened.

NEW RULING ON CUTTING XMAS TREES ON GOVT. LAND

CAMPTONVILLE, Dec. 9.—Forest Ranger Frank W. Meggers, in charge of the local Forest Service office has announced that the government some time ago issued regulation that all Christmas Tree sales should cease after December 1st. Heretofore, many cutters came into the mountains late making large cuts of excellent trees, a big storm coming, and usually the trees staying in the woods to ruin, or if they were obtained, the heavy trucks tore up the government roads needlessly. The Forest Service advocates that trees be properly cut prior to the closing date, and stored in coal cellars or in cold storage until marketed. People coming into the forest too late to get trees from Uncle Sam, are directed to a few private land owners who sell Christmts trees. This section has been cut quite heavily during the past few years, being pretty well thinned out in places.

LUMBER CO. SUES MINE FOR COLLECTION OF BILL

CAMPTONVILLE, Dec. 9—The Grant and Heether Lumber Company filed suit Wednesday in the Yuba County Superior Court against the Brush Creek mine for collection of a lumber bill, Sheriff Dewey Johnson of Downieville serving the papers. The Brush Creek is located ten miles north of here and has been considered one of the best properties in this section, producing some very good ore.

TWIN QUARTZ MINE WILL BUILD TUNNEL THIS WINTER

CAMPTONVILLE, Dec 12.—W. T. King, of Los Angeles, is now located at the Twin Quartz mine, nine miles north of here, expecting to get the tunnel forged ahead during the winter months. He has advertised for men to contract the work at $1 per foot, materials furnished.

The Twin Quartz is an old time quartz ledge, which has been prospected and developed for the past many years, and is owned by Foote Brothers; L. F. Lorenz, a Los Angeles mining man did considerable work there during the past two years putting ahead quite a length of tunnel.

LEGAL NOTICE

NOTICE

CONTROLLER'S DEPARTMENT
State of California

To the Tax Collector of the County of Nevada, State of California:

WHEREAS, a deed or deeds conveying to the people of the State of California the title to the property hereinafter described having heretofore been filed in the Controller's office of the State of California;

AND, WHEREAS, said deed or deeds recite the fact that said property hereinafter described was sold to the people of the State of California for the non-payment of State and County taxes;

AND, WHEREAS, five years have elapsed since the date of said sale, and no redemption, according to law, has been made of said property, or any part thereof;

NOW, THEREFORE, in pursuance of the law in such case made and provided, I, Ray L. Riley, Controller of the State of California, by virtue of the authority in me vested by the laws of this State, do by these presents authorize, empower, and direct you, the said Tax Collector, to sell at public auction, in separate lots or parcels, the property hereinafter described.

The property above referred to, and hereby authorized to be sold, is situate, lying and being in the County of Nevada, State of California, bounded and particularly described as follows, to wit:

Property sold to the State June 29th, 1920 for the delinquent taxes of 1919:

Lot at Relief Hill bounded S by Imp. of W. R. Williams with improvements.

Deed No. 6.

No bid shall be received or accepted at such sale for less than the amount of all the taxes levied upon such property, and all costs and penalties for every year delinquent as shown by the delinquent rolls for said years and also all tax leins up to the date of the execution of the deed to the state, together with interest at seven per cent per annum and also the graduate redemption penalties required under Section 3817 of Political Code computed upon the aggregate amount of the taxes for each of said years from the first day of July following delinquency to the date of the sale hereunder, and all expenses accrued to the date of the sale under this authorization.

Said sale shall be conducted in all respects as provided for by law governing such sales.

GIVEN under my hand and seal of office, at Sacramento, this 2nd day of December, A. D. 1932.

RAY L. RILEY.
Controller.
By CLARENCE H. SMITH, Deputy

Sale of Real Estate by Authorization of Controller
(Under Section 3897 of the Political Code)

SUMMONS

In the Superior Court of the State of California in and for the County of Nevada.
No. 6085

Action brought in the Superior Court of the State of California, in and for the County of Nevada, and complaint filed in the office of the Clerk of said County of Nevada.

Corporation of America, a corporation,

Plaintiff,
vs.

Augustus Stenger, Margaret H. Dickerman, Thomas W. Richards, M. Rosenberg, also known as Morris Rosenberg, and Rose Rosenberg, his wife, John Doe, Richard Roe, Black Company, a corporation, and also all other persons unknown claiming any right, title and estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's title thereto,

Defendants.

The People of the State of California Send Greetings To:

Augustus Stenger, Margaret H. Dickerman, Thomas W. Richards, M. Rosenberg, also known as Morris Rosenberg, and Rose Rosenberg, his wife, John Doe, Richard Roe, Black Company, a corporation, and also all other persons unknown claiming any right, title and estate, lien or interest in the real property described in the complaint adverse to plaintiff's ownership, or any cloud upon plaintiff's tite thereto.

Defendants.

YOU, AND EACH OF YOU, are hereby directed to appear and answer the complaint in an action entitled as above, brought against you in the Superior Court of the State of California, in and for the County of Nevada, within ten (10) days after the service on you of this Summons, if served within this County, or within thirty (30) days if served elsewhere.

This action is brought to determine the adverse claims to and the clouds upon the title to the real property described in the complaint herein and hereinafter described by the said plaintiff, a corporation, which claims that by itself, or by itself and its predecessors in interest, it has been in the actual, exclusive and adverse possession of such property continuously for twenty (20) year prior to the filing of the said complaint, claiming to own the same in fee against the whole world, and to have paid all taxes of every kind levied or assessed against said property during the period of five (5) years continuously next preceding the filing of said complaint, and which said property is situated in the said County of Nevada, State of California, and bounded and described as follows, to-wit:

All that real property situated, lying and being in the city of Nevada City, county of Nevada, state of California, particularly described as follows:

All of Lot 5 and the west 20.75 feet of Lot 8 in Block 16, Nevada City, California, as shown on the Official map of Nevada City, made by H. S. Bradley in 1869.

Beginning at a point on the south side of Broad Street from which the corner of Broad and Pine Streets bears N. 72 deg. 26 min. W. 120.57 feet, and running thence:

1. S. 72 deg. 26 min. E. 20.66 feet. Thence
2. S. 17 deg. 06 min. W. 173.00 feet to Spring Street. Thence along Spring Street
3. N. 72 deg. 26 min. W. 20.75 feet to the east line of Lot 4. Thence
4. N. 17 deg. 08 min. E. 173.00 feet to the place of beginning and containing 0.0825 acres, more or less.

AND YOU ARE HEREBY NOTIFIED that unless you appear and answer as above required, the said plaintiff, a corporation, will take judgment for any money or damages demanded in said complaint, as arising upon contract, or will apply to the court for any other relief demanded in the complaint.

GIVEN UNDER MY HAND and the seal of the Superior Court for the County of Nevada, State of California, this 27th day of June, 1932.

(SEAL)
R. N. McCORMACK, Clerk,
By R. E. DEEBLE

State of California
Department of Public Works
DIVISION OF WATER RESOURCES
Sacramento

NOTICE OF APPLICATION TO APPROPRIATE WATER

Application 6471.

NOTICE IS HEREBY GIVEN, That Charles H. Munro, care Geo. F. Taylor, Downieville, California, has under date of November 1, 1929, applied to the Division of Water Resources, Department of Public Works, State of California, for a permit to appropriate unappropriated water, subject to existing rights.

Description of Project

Water to be appropriated from (a) Middle Fork Yuba River, tributary to Yuba river, (b) Bloody Run, tributary to Middle Fork of Yuba river, (c) Wolf Creek, tributary to Middle Fork Yuba river; counties of (a) Nevada; (b) Nevada; (c) Sierra.

Amount applied for: 157.50 cubic feet per second from (a); 50 cubic feet per second from (b); 25 cubic feet per second from (c); 232.50 cubic feet per second, total.

Diversion season named: October 15th to August 15th of each season.

Water to be used for mining purposes.

Point of diversion within (a) SE¼ of SE¼ of Sec. 6, T. 18 N., R. 11 E., M. D. B. & M.; (b) SE¼ of SE¼ of Sec. 24, T. 18 N., R. 9 E., M. D. B. & M.; (c) NW¼ of SW¼ of Sec. 6, T. 18 N., R. 11 E., M. D. B. & M.

Place of use described: Sections 23, 24, 25 & 26, T. 17 N., R. 7 E., M. D. B. & M.; Sections 1 and 12, T. 17 N., R. 8 E., M. D. B. & M.; Section 36, T. 18 N., R. 8 E., M. D. B. & M.; Sections 3, 4, 5, 6, 7, 8, 9 and 10, T. 17 N., R. 9 E., M. D. B. & M.; Section 32, T. 18 N., R. 9 E., M. D. B. & M.

As shown on map filed with the Division of Water Resources.

Water will be returned to: South Fork of Yuba river in NE¼ of SW¼ of Sec. 36, T. 17 N., R. 7 E., M. D. B. & M., and Middle Fork Yuba river in SE¼ of SE¼ of Sec. 26, T. 18 N., R. 8 E., M. D. B. & M.

Relative to Protests

Blanks upon which to submit protests will be supplied free upon request by the Division of Water Resources.

Any person desiring to protest against the granting of such permit shall within 60 days from date hereof, file with the Division of Water Resources, Sacramento, California, a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the application and shall contain the following information:

(1) Statement of the injury which would result to protestant from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use and of the point of diversion of the water.

A copy of the protest should be sent to the applicant and this office notified that the same has been done.

EDWARD HYATT,
State Engineer.

SHOPPING IN THE TWIN CITIES

We have many stores in our Twin Cities that are desirous of our patronage, not only of our patronage, but our friendship.

They are helping to build our community, helping to make it a better, pleasanter place to live. In short, they are boosting for better times. Are we going to help them by Trading at Home, or are we going to let their good work go unheeded by Trading away from Home, where our Friendship is considered as so much trash?

The other stores want our cash; don't think they care for us, as far as Frinedship goes. Why, then, help the other town to forge ahead on our hard earned cash?

A dollar spent at Home pays big dividends, while a dollar spent away from home is a loss. We are paid on an average of 6 per cent on every dollar spent in our our community. Did you ever stop to consider that?

Remember, Co-operation and Prosperity travel side by side.

One cannot possibly survive with out the other. When ever you notice a town forging ahead, where ever you see signs of Prosperity, if you take notice, you will find that Co-operation is at it's best.

Our local stores are run by local boys in nearly every case. They will be glad to serve us, and if when we do let them serve us, we have to be satisfied or our money is returned.

They not only want our patronage, but they value our Friendship, and believe me Friendship is something to prize. So let's build a better town, by Trading at Home, and let's let Prosperity shine in big letters by each giving the needed Co-operation. Trade at Home and be happy.

Respectfully,
JOE M. SWAZEY

THE AD MAN'S PRAYER

Great god of advertising,
Keep one wild eye on me;
Oh, lend me your assistance
Wherever I may be;
That sometime in the future
I may be safely led
To write a clever, pulling ad
That really will be read.

An editor sits down at ease
To write his snappy stuff,
But when I try to follow suit
Your lines I sadly muff;
An editor has lots of time
And real brains in his head,
An editor could write with ease
An ad that would be read.

I'd like to write a vivid ad—
As bright as Halley's comet,
And hang it where the whole wide world
Would come and gaze upon it;
But lo, bright advertising men
Frown now on fancy capers,
And say, "the best place for your ad
Is in your home town papers.

Oh well, I can't help longing
For something fine and grand,
A burst of inspiration,
Bright thoughts to thrill the land;
And so, I'm praying humbly
When all is done and said,
Just for the power to write an ad
That really will be read.

—A. Merriam Conner.

IN YOUR OWN INTEREST SHOP IN THE "TWIN CITIES"

Yuba River Country

Gold started one of the world's most romantic movements when Marshall found a nugget on the surface. For several years thereafter the surface was combed by many thousands and soon men found it necessary to start digging for gold. At first they "coyoted" into old river channels. The term "coyoting" arose because the holes into which the miners slid reminded them of coyote holes. These tunnels were scraped out by hand—the only tools being a pick, shovel, and bucket. When they reached the gold bearing gravel, pillars of that material were left standing to support the roof. Incidentally, half a century and more later properties were again worked to obtain the values that had been left standing in these pillars by the original workers.

Today, digging for gold is no longer a highly individualized occupation. Gold mining is a great industry. At Grass Valley the Empire-Star Mines Company, a subsidiary of the Newmont Mining Corporation, under the management of Mr. Fred W. Nobs, is the greatest gold mine on the Pacific Slope. It is rivaled on the American continent by one other—the Homesteak in the Black Hills of South Dakota. It is operated from three shafts—the Empire, Pennsylvania, and North Star. At the surface these are within a radius of two miles. It is possible to go into any of the three shafts and to come out at either of the remaining two. It is nearly impossible to imagine the size of this underground workshop. During the more than 82 years that portion of this property has been worked, there have been carved out of the solid granite and quartz over 190 miles of underground laterals. These tunnels are at various levels from a few hundred feet beneath the surface to more than 4000 feet. They are connected with the top by means of shafts. At the Empire two shafts on an incline have a length of 9200 feet before they reach maximum depth. At the North Star a vertical shaft drops straight to the bottom. Daily the miners step into a cage at the surface 2400 feet above sea level. The cage commences to drop into instant darkness as heavy beams seem to flash upward. Every few moments the darkness is relieved as the cage passes a station. Water commences to trickle down on every side as the drop continues. The supporting cable lengthens overhead until it reaches one thousand feet, two thousand, three and then four thousand feet. The cage commences to slow down and finally stops—excepting for a bouncing motion caused by stretch and contraction of the cable. The men step out into a huge room hewn out of solid rock, roughly 110 feet in length, 50 feet wide and 15 feet high. Here they work nearly 1500 feet below sea level! Formerly this same spot was reached by inclines that traveled 8600 feet from the surface. Then several years ago, the old North Star company sank a vertical shaft cutting the distance traveled to less than half and effecting a tremendous saving in hoisting rock. From this station, as from the various other stations connecting with each shaft, tunnels radiate in different directions, tapping and following the gold bearing quartz veins. The temperature is of a constant coolness; the air is laden with moisture. Here in the eternal darkness live and work a herd of 44 mules. Their underground stables are lighted with an electric globe—but when they work they wear on their heads the regulation miners carbide lamps. Most of these faithful performers have worked on the same job for many years, rarely, if ever, coming to the surface. In 1921 they were brought to the top for a short time. But they did not like it, and wanted to get back down. Daylight blinded them and the change in temperature between day and night caused them considerable suffering. They were a happy lot when once more they found themselves back in their accustomed places. Most of them have become pets of the miners with whom they have worked so long. Contents of lunch buckets galore have been divided with them. Several have become famous for their definite characters—such as Jasper. Jasper frequently gets a yen for a chew of tobacco. He lets this be known by ringing the low granite ceilings with his heels and refusing to work. Then when he gets his chew, he pushes his shoulders into the yoke and the cars commence to roll.

The Letter Box

The following, contributed by our Camptonville correspondent, is good, sound advice for those who think they can make some easy money mining in the mountains of Northern California:

The announcement that the mining season was about to start, has given encouragement to a number of people to come into the mountains following the century old quest for gold, endeavoring to find a place where they might be able to make 50 cents or a dollar a day.

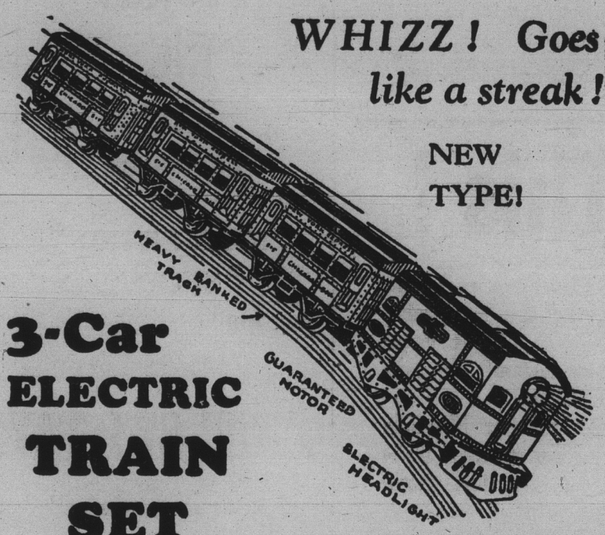

Past experience of the many should warn these people that it is extremely bad policy to seek habitation in the mountains at this time of the year, for any morning could bring forth a heavy fall of snow, meaning great hardships and even might cause one to perish.

Becoming stranded, without funds in the grip of a big storm, presents a very difficult situation, particularly in as much as there are no charitable or welfare institutions in the mountains to aid the distressed.

It is amusing ,in fact, alarming to note the large number of persons, who by someone of the cities, are advised to come to the mountains with a gold pan, believing that it is possible for them to take out real money. Such form of making a living is a mere existence by those who know a little about it. There are no locations in these mountains open to anyone to locate upon which will yield anything of value. If there were, the many unemployed men who live here would certainly take advantage of them. True enough, perhaps some of the greatest mines in the country are here yet to be uncovered, but prospecting for a good mine, and mining here and there to make bread and beans are two different stories. What the country needs is more prospecting, but done by someone who has enough money to live on while they are looking for the new ledge or channel. The present placer beds along the rivers, creeks and ravines are now being gone over for the third time; first by the forty-niners, who did not leave very much, secondly by the early day California Chinese who took all they could find that the white man left, and now, lastly by those who are laborously trying to pan a livlihood from what little may be left.

From Our Correspondents

NORTH SAN JUAN

NORTH SAN JUAN, Dec. 14.—We have been having an unusually long and severe cold spell which convinces us that winter has at last arrived though long on the way. Water tanks and pipes froze up one night and have not yet thawed out. Cars refuse to go these mornings and every one hurries along well bundled up. It may be that the cold weather has affected the news, for there seems to have been little doing the last fortnight.

Mr. Dinwiddie and party of Sacramento, were in town recently looking over mining interests in the community.

On Monday evening, December 5, the agent of the Everwear Aluminum Ware, from Sparks, Nevada, gave a demonstration dinner at the home of Mr. and Mrs. R. N. Kerr, to some twenty couples. The various articles comprising the dinner, including the angle food cake, were cooked on top of the stove. A social hour was enjoyed later by the neighbors gathered together for the occasion.

Mr. and Mrs. Tailey and family from Oakland, have moved into town and are sending their son Frank to school.

Miss Baylis and pupils are busily engaged in practising for their Christmas program. The youngsters all seem to have entered into the true spirit of the season and are busy and happy.

Mr. and Mrs. Otis Sweetland of Yuba City motored to their former home at Sabastopol, on Sunday and surprised their old neighbors and friends, the Wienmans, with a call. They carried home with them a fir tree and some holly to help make their christmas festive.

Dr. Terness and friend, a mining engineer, from Visalia, have been stopping at the National Hotel for a few days while looking over mining interests near here.

Rev. H. H. Buckner, preached here on Sunday. He arrived later than his usual time as did also Mr. and Mrs. C. H. Jones, owing to the difficulty of getting their cars to running with their accustomed ease.

Quite a number are being afflicted with the flue these days, though it does seem as if Jack Frost has done his best to free all germs in the air.

Mrs. Flindt, teacher of the Indian Flat school, is preparing for a Christmas tree and program tomorrow evening.

CAMPTONVILLE

CAMPTONVILLE, Dec. 12.—The Misses Aurila and Katherine Cassano arrived Sunday from Sacramento. On their return they took their father, G. B. Cassano, who is suffering with pneumonia, with them. His many friends here are glad to learn of his improvement.

Hector Dyer and his mother, Mrs. B. T. Dyer, of Los Angeles, arrived a few days ago from the south, taking up their residence at Indian Hill where they will spend the winter.

Mandus R. Carlson who has been laid up for the past few days with illness, was improved this week.

Mrs. Rachael M. Labadie and Miss Lola M. Labadie motored to Downieville Wednesday afternoon.

James L. Foote, wire chief of the Pacific Telephone and Telegraph Co. of Grass Valley, was in town Wednesday on business.

Art King of Yuba City passed through town Wednesday from Sacramento en route to the upper country with a load of produce.

William O. Grant motored to Marysville Tuesday on a short business visit.

Acton M. Cleveland motored to Nevada City Wednesday evening on a short visit.

Lawrence Turner motored to Downieville Wednesday on a short visit.

Kenneth Schurr and Jack Humphrey motored to the lower country Wednesday on a short visit.

Mrs. J. E. McDonald of Downieville passed by Wednesday from Nevada City enroute to her home at the Sierra county seat.

Erle Pauly of Auburn arrived Wednesday evening to spend a day visiting with his parents here.

Mrs. Kate Hope Livingston left Thursday for Los Angeles ot spend the winter vacation.

Mr. and Mrs. Perry Orr moved to Twin Quartz mine Thursday where he will work this winter.

Floyd Cartwright of Grass Valley passed through town Thursday enroute to the upper country from Sacramento.

A. J. Heether motored to the Ruby mine Thursday on a brief business call.

Fred J. Joubert motored to Nevada City Thursday on a brief visit.

William O. Grant motored to Downieville Wednesday on a short business visit.

R. C. Zaring recently installed flamo lighting equipment in his home on upper Main street.

William J. Labadie of Browns Valley was in town Thursday on a short business visit.

For the first time in several years snow began to fall upon dusty streets last week.

CAMPTONVILLE, Dec. 10.—Julius E. Pauly motored to Grass Valley Friday on a short business visit.

Miss Lola M. Labadie left Friday for her home at Browns Valley after a few days visiting her aunt Mrs. Rachael M. Labadie at the Hotel Francis.

Miller McBride and wife of Yuba City, were in town Friday on a short business visit.

D. W. Deerwater, Sierra City cattleman, passed through town Friday from the upper country enroute to the valley, gathering in his last bunch of cattle.

O. A. Hays and Louis Largarmarsino of San Jose, passed by Thursday from Sierra City enroute to their home.

Glenn Silva of Browns Valley, was in town Friday on a short visit.

Mr. and Mrs. A. H. Hamilton and daughter Patty, left Friday for Sacramento and Petaluma on a short vacation visit.

Charles Donnelly of Oakland passed through town Friday enroute to Kirkpatrick mine.

Erle Pauly left Friday for Auburn after a short visit with relatives here.

Lawrence E. Turner had the misfortune of slightly damaging his car Friday when it skidded on the icy pavement and bumped into a stump.

CAMPTONVILLE, Dec. 13.—Mr. and Mrs. Julius E. Pauly and sons Warren and Leland, and Mrs. Louise Knickren, motored to Sacramento Saturday, Mrs. Knickrem continuing on to Oakland.

Henry Packard left Friday for Stockton on a short visit with his family.

Lawrence Turner made a business trip to Marysville Monday.

Mrs. M. J. Cunningham and Dorothea Mark, motored to Sacramento Friday on a short visit.

J. C. Smith of San Francisco was in town Saturday on business.

Messrs Davies and Klinkel of Alleghany were in town Sunday with the P. G. & E. truck escorting a large transformer to the Tightner mine.

Mr. and Mrs. Albert H. Hamilton and daughter Betty, returned Sunday from a short visit with relatives at Sacramento.

A turkey shoot was scheduled for Sunday afternoon in the Kendall meadow on the bedrock, but the extreme cold and bad weather prevented it.

Lee Bullington, local carpenter is now doing some work at the Cunningham residence at North San Juan.

CAMPTONVILLE, Dec. 14.—Mrs. Grace Peterson returned Monday from a few weeks visit at Grass Valley.

John Bartley, who has been mining on the Yuba River twelve miles north of here, left Tuesday for his home in Los Angeles.

William A. Lang, proprietor of the Lang Garage, went to the Halkyard mine Tuesday to do some work on the compressor.

Fred J. Harges of Nefcastle, was in town Tuesday on a short business visit.

Fred Hill motored to Grass Valley Monday on a short visit.

Joe Korn, of Sacramento, was in town Tuesday on business.

William LeMasters and George Wilson of Sacramento, were in town Tuesday, enroute to Forest City to do some repair work on the telephone line.

Louie Kopp, popular baker of Nevada City, was in town Tuesday on a short business visit.

FRENCH CORRAL

FRENCH CORRAL—Dec 12.—Well the unusual has happened again and we have passed through another record cold spell. We say passed through—but perhaps it is not over with yet. However the temperature modified last night and today has not been so cold. Solidity certainly prevailed for several days and we might have had an "ice carnival" had we prepared for it. Well, we are glad to be in Nevada county, far famed for its wonderful climate and where we are given a taste of all kinds of climate and when ice is being harvested nad an "Ice Carnival" put on in the northern part while fruit from the orange groves is being harvested in the southern part of the state.

"Flu" is abating and all cases are on the road to recovery.

Mr. J. Schevis has recovered from his recent illness and is about his work again.

Walton Wood called on friends in French Corral Friday. He and his wife plan to spend the winter in Sweetland, his old home town. All his early life was spent in Sweetland and French Corral, his father being in the merchandise business and also postmaster at the latter place for many years. Mr. Wood has been in the employ of a mining company in Mexico for many years, but at the present time the company is not operating their mine. His many friends are happy to know that he and his wife are again to be residents.

Miss Francis Moulton spent the week end with her parents in our fair city.

We learn that Mr. Ernest Brown will spend the winter with his son, at the old home place in Sweetland. The Brown family were pioneer residents of Sweetland, but like all the pioneer families have drifted to other parts of the state, and some have passed to the "other side." The old home in Sweetland is undergoing repairs and a new roof has been put on. We are always glad to have the old friends return.

Mr. and Mrs. Lloyd Dudley, of Nevada City were Sunday visitors at the home of W. E. Moulton.

Supervisor J. Frank, of Rough and Ready was in this section last week, doing some much needed road work.

Mr. and Mrs. Clyde Bishop and Mr. Bishop's mother, were Saturday visitors and at night a glorious time was on. A happy crowd assembled at the home of Mr. Bishop's mother, and after the "first salute" of the merry makers, the evening was spent in games, music and song. Delicious refreshments were served and a very happy time was enjoyed by all. Mr. and Mrs. Bishop returned to Marysville at midnight. The newlyweds carried with them the best wishes of their many friends.

Messrs. Moffit and Doctor Smith were visitors during the week. These gentlemen have recently purchased the placer mines of Thomas Hall, situated near Buckeye Hill, in the old town of what was once known as Shinville. We are glad to see the improvements they have already instigated, in moving the old Johnson house from its perilous position on the edge of the bank and moving it nearer to the road.

The hay barn of Mr. Hall has been converted into a neat little cottage, and two families will reside on the property. Many times in passing through we have given a sigh for the old Johnson house which seemed so near to destruction. We could almost imagine it animate and wonder if the dear old landmark which was in years gone by the scene of many happy hours when its walls resounded with music and song and the joyous mirth and laughter of happy youth. The Johnson family was also a pioneer family and one could write a story in recalling the memories of other days. Mr. Johnson, Sr, who was familiarly known as "Pap" contributed much to the enjoyment of our early day young folks, as he often furnished violin music for our dances and was beloved by all.

TO SELECT NATIONAL TREE

The National Life Conservation Society, a woman's organization with headquarters in New York, announces it will conduct a nation-wide poll on the choice of a national tree. Anyone can vote, but for goodness sake don't send your vote to the Pathfinder. Address them to Mrs. Charles C. Marshall, 2239 Tiebout Ave., New York City.

Nearly half of the people in Scotland live in one and two room houses (which is certainly tight quarters.)

LOST—Eastern Star pin, small cut diamond. Reward. Apply Nugget office.

* * *

BE PREPARED FOR "COLD PEAK" WEATHER WITH CAREFREE GAS HEAT

AN ABUNDANCE OF HEAT WITHOUT BASEMENT WORK

THERE is no doubt about it—no man likes the chore of fuel carrying, fire building and waste disposal that hand-fired heating equipment demands. It is an especially disagreeable task when a dead fire demands attention after one has had a hard day's work in office, shop, or field.

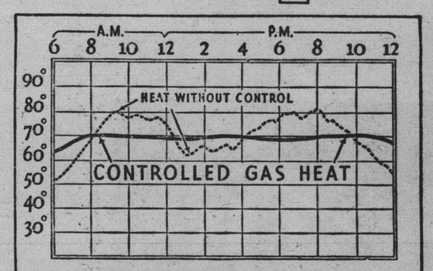

Get rid of fire stoking and stove cleaning. Heat your home the clean, convenient, modern way, with Controlled Gas heat that gives to every room even "Comfort Zone" warmth at a finger's touch of electric button, key, or automatic thermostat.

The difficult heating season is with us now, months of "Cold Peak" weather. Perhaps last winter you fired up your present heating plant to the limit, but still the house was cold. Change now to gas heating equipment and presto! an abundance of heat is yours to command. Economical, clean heat flowing into every room of your house without worry or work.

Won't you investigate the type of gas heating equipment your home needs? Ask a representative of this company or consult your local gas heating dealer, and have them give you an estimate for gas heating equipment in your home. Only a small cash deposit is necessary while the balance may be spread over a long period of time.

Natural Gas will maintain this "Comfort Zone" 71° 65° at low cost

CONTROLLED HEAT
With gas fuel you can have maximum heat instantly available and keep it regulated to any temperature desired. Controlled heat from gas heating equipment is possible by merely turning a valve or handle, by pressing a button to get high, low or medium heat, or by setting an electric thermostat to automatically maintain any desired temperature.

LOCAL HAPPENINGS

Little Edwin Berger is ill with the flu.

Will Young is slowly recovering from a recent severe spell of flu.

Miss Deynes Foley, student at the University of California, is home for the holiday season.

Scout Executive Harris Ricksecker of Auburn was a visitor in Nevada City Monday evening.

Mrs. Loren Williams spent Sunday in Sacramento visiting with her daughter, Mrs. Hazel Williams.

Mrs. Preston, of the newstand, has practically recovered from a severe fall at her place of business.

Frank E. Clark, mining engineer of this city, has recently recovered from a light attack of the flu.

Mr. Gegan of the Du Pont Powder Company, was a business visitor in this city yesterday:

Don Carlos Billick, Nevada City assayer, is installing some new equipment in his plant this week.

Mr. Sweeney, music instructor at the Nevada City high school, has taken an apartment at the Lamar Fleming home.

Lubren Clawson, who received an injury in a bad fall, was able to return to work in the Pennsylvania mine early this week.

Mr. and Mrs. Curtis Coleman of Sacramento, visited with their relatives, Mr. and Mrs. Louis Elkus, Sunday. Mr. Coleman is in the employ of Kimball Upson.

Will Hatch, who had such a severe case of blood poisoning in his hand recently, was able to return to work at the Murchie mine a few days ago.

Miss Beth Young, Mrs. Will Young Jr., Mrs. Clarence Osborne and Richard Fisher, are visiting in Sacramento today.

Mrs. Will Young received the sad news yesterday of the passing some time ago of Rev. I. O. Pearsall of Elsinore. Mr. Pearsall and wife will be remembered here by many as he conducted Pentacostal services for some time in Nevada City.

Many cases of sickness are reported this week. The extreme cold weather coming as it did suddenly caught many people unprepared and as a result many pupils and a few teachers are missing from school this week.

Scout official Ricksecker, of Auburn, was a Nevada City visitor last Wednesday evening. He is interested in the establishment of Cub Scout Packs in both Nevada City and Grass Valley.

William Warsham of this city is planning a trip into the backwoods to get some Christmas trees soon.

Cal Linnel made a hurried trip to this city from French Corral last Wednesday afternoon.

Mr. and Mrs. R. L. P. Bigelow, motored to San Francisco Tuesday, where Mr. Bigelow will attend a yearly meeting of the Tahoe National Forest Service officers which opened Wednesday.

T. J. Shipley of Alleghany was in Nevada City Monday.

George Garcia, of the Mergenthaled Linotype Company was a visitor in Nevada City Tuesday.

Mr. and Mrs. Elton Durbin of Sacramento are visiting in Nevada City with relatives.

Ranger Frank McCaslin, of the Bloomfield ranger station, was a visitor in Nevada City Monday.

Bob Barker, University of California student, is home for the Christmas holidays.

Fred E. Conner, manager of the Nevada County Lumber Company, was a visitor in Sacramento Tuesday.

Mrs. Elmer Marriot is confined to her home with a severe attack of pleurisy. Her son, Richard ,is also ill with a bad cold.

Otto Schiffner, superintendent for the Hoge Development Company, was confined to his home a couple of days this week with a bad cold.

A. A. Wise, president of the American Machine Company of Oakland will be a Nevada City visitor on business in a few days.

Mrs. Cecil Curtis, of Alta, who was operated upon several days ago, at the Jones Memorial hospital, is making a splendid recovery. Mrs. Curtis and family were former residents of Nevada City.

Mr. and Mrs. C. E. Pedersen of Berkeley, spent last week-end visiting with his many friends here. He taught in the Nevada City schools and was recently married, bringing his bride here to enjoy a short visit

Lewis Riley and Clyde Mugford drove to Sacramento Tuesday night. They returned with Mrs. Clyde Mugford and two y ear old Bobbie who had been visiting inthe Capital City since last Saturday. All parties concerned plan to make another trip to Sacramento tomorrow night for the week end.

An experienced wife is one that can make him suffer more by silence than by talking to him.
